PARIS 2024 Welcome

Celebrating 25 Years of Science and Innovation

IMCAS is beyond excited to welcome you for our hallmark 25th edition of IMCAS World Congress. Returning to the Palais des Congrès in Paris, this landmark event promises to be an extraordinary gathering of distinguished professionals, researchers, and industry leaders from around the globe.

Over the years, IMCAS has consistently served as a premier center of science, collaboration, and the exchange of knowledge in the fields of dermatology, plastic surgery, and aging science. As we celebrate this significant milestone, we are delighted to present a program that reflects the cutting-edge progress of research, clinical practice, and procedural technology.

This year's program will cover an extensive array of topics and breakthrough techniques. Ranging from clinical dermatology, minimally invasive procedure, ethics, regenerative medicine, plastic surgery...all areas are specialized to refine your skillset and cover the developments and trends of each rapidly evolving field. The IMCAS signature sessions also return this year with world-class

experts in the Grand Amphitheatre. The Live Anatomy on Cadaver Workshop explores live injection and thread techniques and cadaver dissection to take a comprehensive look at safe and effective methods. On the surgical side, the unique format of the Live Augmented Surgery & Anatomical Dissections provides surgeons with education and training in the latest plastic surgery techniques along with a fundamental understanding of the underlying anatomy.

Beyond the exceptional scientific content, the World Congress offers various social events and networking opportunities to facilitate meaningful connections among participants. Discover an incredible exhibition of +300 international companies and innovation to engage with, forge business collaborations, and establish lifelong professional relationships.

We look forward to a momentous event, where knowledge will be shared and collaborations will be fostered, at the center of patient care and scientific discovery. Join us for IMCAS World Congress 2024 as we both shape and celebrate the future of specialty care.

CONFERENCE ADMISSION

Admission is by badge only. A precise badge policy has been implemented specifying the rules of admittance to the different sessions of the congress, complying with the criteria required by the CME accreditation organizations. According to each badge type, a full or partial access is issued.

Exhibitors can register for the conference through the company's IMCAS exhibitor account. Please contact the Sales Department for any further information concerning exhibition: industry@imcas.com

IMCAS is a congress created by physicians, for physicians (Medical Doctors). Access to the congress and sessions is subject to a number of regulations that aim to guarantee the scientific independence of the congress and preserve it from any commercial bias or influence.

A precise badge policy has been implemented specifying the rules of admittance to the different areas of the congress, complying with the criteria required by the CME accreditation organizations and scientific society partners. According to each badge type a full or partial access is issued (after verification of required supporting documents). In this regard, in respect of the local policies towards medical aesthetic treatments, no admittance to the congress sessions is allowed for dentists. IMCAS is authorized to take measures which may lead to the withdrawal of the badge and the denial of access to the congress area if the badge policy is violated.
